

SAAN Platform provides a new experience of total logistics management solutions. Enhancing service quality, never miss on any incident and provide insights to your business

➤ HOW DOES IT WORK?

ROUTE PLANNING

Uses drop off and vehicle data to generate an optimized route plan.

LOADING PLAN

Allocates cargo efficiently through the calculation of item dimensions.

SAAN PLAN

➤ KEY BENEFITS

COST REDUCTION

Minimize costs by maximizing vehicle capacity, which may eventually reduce the number of vehicles used.

DELIVERY QUALITY IMPROVEMENT

Seamlessly follow a predetermined route to enhance delivery efficiency.

BETTER USAGE OF VEHICLE FOR MULTI-DROP OFFS AND CARGO LOADING

Utilize vehicles efficiently by maximizing their capacity through improved cargo loading and using a system-generated routing sequence.

SERVICE IMPROVEMENT TO BUSINESS AND CONSUMERS

Enhance logistics operations and satisfy end consumers with our optimized route and load plan.

ปรับปรุงวิธีการวางแผนกำหนดเวลาการขนส่งสินค้าสำหรับคนขับ

Efficiently plan delivery schedules and sequences with your drivers.

การรายงานการขนส่งที่มีประสิทธิภาพ

Evaluate deliveries with real-time access to electronic proof of delivery.
