

SAAN Platform provides a new experience of total logistics management solutions. Enhancing service quality, never miss on any incident and provide insights to your business

SAAN GO

HOW DOES IT WORK?

DELIVERY MONITORING

Assigns the generated plan as trips to drivers and monitor delivery status.

DRIVER APP

Drivers accept trips on the app, follow the route, and provide electronic proof of delivery with photos, e-signatures, and service ratings per stop.

KEY BENEFITS

COST REDUCTION

Minimize costs by maximizing vehicle capacity, which may eventually reduce the number of vehicles used.

BETTER USAGE OF VEHICLE FOR MULTI-DROP OFFS AND CARGO LOADING

Utilize vehicles efficiently by maximizing their capacity through improved cargo loading and using a system-generated routing sequence.

ปรับปรุงวิธีการวางแผนกำหนดเวลาการขนส่งสินค้าสำหรับคนขับ

Efficiently plan delivery schedules and sequences with your drivers.

DELIVERY QUALITY IMPROVEMENT

Seamlessly follow a predetermined route to enhance delivery efficiency.

SERVICE IMPROVEMENT TO BUSINESS AND CONSUMERS

Enhance logistics operations and satisfy end consumers with our optimized route and load plan.

การรายงานการขนส่งที่มีประสิทธิภาพ

Evaluate deliveries with real-time access to electronic proof of delivery.
